New ASTM F404-18 compliant warning labels can be found on the front of the back rest.

Permanent passive restraint added to the front of the chair and the height of the back rest have been increased to keep child more securely in their seat.

The gaps on side panels between arm rests and seat have been reduced to prevent children's limbs from getting lodged.

Split washers will be used with all bolts to prevent them from loosening.

CERTIFIED SAFE FROM EVERY ANGLE.

Our high chairs have been constructed to pass the most rigorous ASTM testing to date.

From top to bottom, front to back and side to side, our chairs are bonafide, certified.

Increased stance and extended base bars added for stability and reduced risk of tipping.

Important Note:

The 3-point seatbelt assembly may differ slightly due to manufacturing method. Please be assured, both versions are ASTM certified. Replacement strap assemblies listed below are based on how assembly attaches to chair.*

Primary attachment system: 3-point seatbelt with side belts attaching to bottom of chair's seat and center belt secured between the center bar of the seat. Use Replacement Strap Assembly A* (Item #676767).

Alternate attachment system: 3-point seatbelt with side belts attaching to chair's back panel and center belt passing through and affixed to bottom of chair's seat. Use Replacement Strap Assembly B* (Item #67676).
