HIGH CHAIRS

ASTM F404-18 compliant

HIGH CHAIRS

New ASTM F404-18 compliant warning labels can be found on the front and back of the back rest.

The gaps of side panels between arm rests and seat have been reduced to prevent arms and legs from getting lodged.

BLACK

Increased stance and extended base bars added for stability and reduced risk of tipping

NATURAL

Permanent passive restraint added to the front of the chair and the height of the back rest have been increased to keep child more securely in their seat.

These high chairs have been constructed to pass the most rigorous ASTM testing to date (ASTM F404 18)

MAHOGANY

WALNUT

Split washers will be used with all bolts to prevent them from loosening.

- ASTM404-18 Compliant
- Warning label with certification and ASTM number
- Permanent passive restraint added to the front of the chair
- Reduced all gaps in side panels and seat back to reduce the risk of fall through
- Increased stance for added stability and reduced risk of tipping
- Durable construction with reinforced fittings
- Available pre-assembled or shipped flat
- Assembled unit is subject to dimensional weight charges, UPS ships oversize

CERTIFIED SAFE FROM EVERY ANGLE.

Our high chairs have been constructed to pass the most rigorous ASTM testing to date. From top to bottom, front to back and side to side, our chairs are bonafide, certified.

New ASTM F404-18 compliant warning labels can be found on the front of the back rest.

Permanent passive restraint added to the front of the chair and the height of the back rest have been increased to keep child more securely in their seat.

The gaps on side panels between arm rests and seat have been reduced to prevent children's limbs from getting lodged.

Split washers will be used with all bolts to prevent them from loosening. 

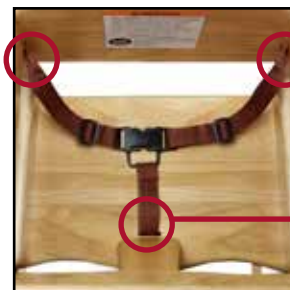

Increased stance and extended base bars added for stability and reduced risk of tipping.

Important Note:

The 3-point seatbelt assembly may differ slightly due to manufacturing method. Please be assured, both versions are ASTM certified. Replacement strap assemblies listed below are based on how assembly attaches to chair.*

Primary attachment system: 3-point seatbelt with side belts attaching to bottom of chair's seat and center belt secured between the center bar of the seat. Use Replacement Strap Assembly A* (Item #676767).

Alternate attachment system: 3-point seatbelt with side belts attaching to chair's back panel and center belt passing through and affixed to bottom of chair's seat. Use Replacement Strap Assembly B* (Item #676766).
