PORTABLE INSULATED ICE WELLS

New Portable Insulated Ice Wells are essential additions to any self-serve station; perfect for indoor and outdoor events, buffets, hotels, restaurants, and cafeterias!

Available in single and double well sizes, in brushed aluminum finish or brushed with black or copper coating. Allowing you to take your buffet or beverage station on the go! The wells are constructed to fit our drop-in templates and Simple Solutions Cast Aluminum serving vessels. The sealed, double walled design with 1" thick insulation material reduces the risk of condensation water droplets on your presentation. Non-slip feet affixed to the underside of the unit keep it in place on your serving line. Drain hole allows for easy emptying and clean up.

Also works well as a beverage or individually packed goods cooler; keeping your food, drinks, or desserts chilled and ready to serve.

- Available in Brushed (BRA) finish and Translucent Clear (TCL), Black (TBK) and Copper (TCP) finishes.
- Single unit can fit one drop-in template and double unit can fit two drop-in templates.
- Custom options also available. To ensure a proper fit, provide dimensions and requirements to your TableCraft sales rep.
- Keeps food chilled up to 3 hours.
- For Cold Serving Only.
- Leftover food should be discarded after use.
- Add ice to the cold well. If using drop-in templates, fill ice up to the bottom of the template.
- If using Simple Solutions Cast Aluminum serving vessels, pre-chill the bowls overnight in the freezer.
- Add cold food to prechilled bowls and place into the cold well quickly to minimize temperature changes.
- Clean cold well by hand with dish soap and warm water.

Sealed, double walled design
